KEY ACHIEVEMENTS

Poultry Pro AI | Next.js | AI SAAS APP

<https://www.poultryproai.site>
Developed an AI-powered poultry management system with features like health monitoring, disease detection, egg counting, chatbot using AI Models.

SKILLS

Next.js	Socket.io	MERN STACK	
TypeScript	JavaScript	HTML	
CSS	Tailwind	MongoDB	
React	Flask	Python	Yolov8
WordPress	Elementor	Laravel	
PHP	Git	GitHub	OOP
Payment Gateways	Docker	SEO	
TensorFlow	UML	Vercel	
Hostinger	WebSockets	Daisy UI	

UNIVERSITY PROJECTS

Employee Management System

📅 12/2023 - 01/2024
📍 Wah Cantt, Punjab, Pakistan
<https://wisam-portfolio.vercel.app/Employee%20Management%20System%20in%20Laravel.mp4>

- Built a centralized system with modules for attendance, payroll, performance, leaves, and reporting for small companies
- Included chat system, email integration, and cron jobs

Plant Disease Recognition System

📅 04/2024 - 05/2024
📍 Wah Cantt, Punjab, Pakistan

A system to recognize plant diseases using AI technology

- Developed and Deploy an AI-SAAS app system that analyzes plant images to detect diseases, helping farmers improve yield and reduce losses
